ACT designs

Designed for first home buyers and investors.

Created to meet ACT compliance codes.

Thrive was created for people just like you because we know that buying your first home or investment property can be exciting, but also scary!

And because we know that, everything we do is designed to make the whole process easier for you and your family so you can, well, thrive!

Designed to meet ACT's compliance codes, our new designs minimise shadowing, maximise natural light and privacy – creating your own place to bask in the sun. And all within the price you can still afford.

Thrive is part of the highly-respected Rawson Group, a family business that's been building homes for Aussies for over 40 years. We're also proud to hold the Homeowners Warranty lowest risk builder rating, with the financial backing of Daiwa House, Japan's largest residential builder.

You're safe and secure.
So what are you waiting for?
Let us help you Thrive!

DISCLAIMER *House type dependent. This specification is subject to change and can be altered at any time as Thrive Homes sees fit to do so without notification. References to block size are based upon a standard block which is up to 350m² with up to 500mm of fall across the block. ‘M’ class soil classification, all services within boundaries, garage setback up to 5.5m from front boundary, even cut and fill. Thrive Homes Pty Ltd considers safety in every aspect of your home, from design through to handover. During the construction phase, all components, including those that are at a height of 3.0 metres or more, can be completed safely due to Thrive Homes strict policies, work methods and safety controls. However, once the finished house is handed over to the client, Thrive Homes can no longer ensure the safety of any person that needs to maintain any components (for example, but not limited to light fittings, fixtures, antennas or gutter cleaning). The client must be aware that the maintenance of any components that are at a height of 3.0 metres or more, will require the implementation of adequate safety control measures and the service of a qualified person that is trained in safe work at heights.
